## Season's Greetings!

Some very important opportunities are available through the ICC Building Safety Association of Vermont in the coming year!

Two ICC training programs are available for all building professionals who provide their services and/or products in Vermont. Building professionals from Vermont and from our neighboring states are all welcome to register and attend!

1. In February, we are repeating the **2006 IBC Update with Vermont Amendments**. Back by popular demand, we will hold this event at Castleton State College, Castleton, VT.

Mark this date on your calendar and use the attached Registration Form to reserve your seat!

2. In April, ICC will hold its **Residential Inspection Institute** in Burlington, VT. This exception training and certification program will focus on the 2009 International Residential Code for One- & Two-Family Dwellings.

Please go to [www.iccsafe.org/RII-VT](http://www.iccsafe.org/RII-VT) for more information about the Institute and to register.

We are working on some other programs that promise to be extremely beneficial. In May, we hope to hold a joint training program with the New Hampshire Building Officials Association on the 2009 International Energy Conservation Code. In September, we have an idea brewing that could be extremely interesting... You'll have to stay tuned!

As always, we are looking for new ideas and participation to help us improve and grow. The BSA-VT has the potential to support building professionals in Vermont in many ways — join us and help us make a difference! We invite you to join our Board of Directors in an open meeting on March 11, 2010 to explore new directions in our rapidly changing building environment.

We look forward to the New Year and hope to see you at our events!

**Happy Holidays!**

## Our Mission:

To advance the professionalism of and provide assistance to code officials, design professionals, builders, manufacturers and others involved in the construction process to help improve public health and safety throughout the State of Vermont.
